EXPERIENCE

Software Engineer

MoneyLion (Mar 2021 - Present)
FinTech

- Finance App based in US (went IPO last year in NYSE).
- Introduced new architecture for frontend development.
- Developed UI framework (for internal use) according to our design system. Hosted using private GitHub packages.
- Lead the initiative to refactor and improve existing and legacy system.
- Worked on improving Developer Experience (DX) by enhancing the development workflow. Such as web preview for each pull request made.
- Improved core web vitals for all of all of our web projects.
- Implement e2e and unit test.
- Take initiative and execute things that improve the product or increase developer productivity.
- Mentor Jr. Developer.
- Practice high engineering standard. Ensure all code are well tested before delivered to end users.
- Manage CI/CD pipelines.

Frontend Developer

TNG Digital (Nov 2020 - Mar 2021)
Fintech (TnG ewallet)

- No 1 e-wallet in Malaysia. A joint venture between Ant Financial (Alibaba) and Touch n' Go Malaysia.
- Lead developer for new product (Insurance renewal)
- Practice Test driven development (TDD).
- Ensure code delivered to end users are well tested with unit testing.

Frontend Developer

Vettons (June 2019 - Oct 2020)
Technology/E-commerce

- Lead Developer for main product (Vettons App - React Native)
- Setup code standard (followed Airbnb engineering guidlines) and ensure all engineers followed the practice.
- Manage App Store & Play Store release. For both android and iOS.
- Worked with Augmented Reality (AR) and Speech to text technology
- Mentor Jr. Developer

Associate Full Stack Developer

Revenue Monster Sdn Bhd (Dec 2017 - March 2019)
FinTech

- Revenue Monster is a FinTech company that focus on payment gateway.
- Worked on a new Project (WeTix) with minimal guidance form seniors/lead.
- Maintain and develop new features for WeTix.
- Manage production deployment for WeTix.

EDUCATION

Asia Pacific University (2015 - 2017)
Diploma in Electric and Electronic Engineering

SOFT SKILLS

- Critical Thinking • UI/UX Sense • Team Player • Leadership
